1. (C) Over the past several years, Fire and Safety Surveys have been conducted by members of the Safety Branch, Physical Security Division/OS for the Laboratory Facility, [REDACTED] Included within these studies have been various recommendations to vastly improve the fire/safety aspects for this vital facility.

2. (U) The original laboratory building was built in 1953. Since that time, the building has had four additions constructed and the structure now comprises a total floor space of approximately 52,000 square feet. A contract has recently been awarded to install a special use trailer which will abut the laboratory building and in turn will increase the floor space by an additional 1,392 square feet.

25X1A

3. (C) In order to implement the improvements recommended, corrective project line items have been programmed in the [REDACTED] budget. Approved in our FY 77 program is a project for providing a new fire detection system, standpipes, eyewash showers and fire doors in [REDACTED] at an amount of \$120,000. Included in our FY 79 program call is a project for providing a sprinkler system in the amount of \$161,000.

25X1A

4. (C) Discussions were held with C/RECD/OL on 3 June 1977 concerning the availability of funds in the current FY as well as the requirements for design accomplishment and construction. It has been recommended by C/RECD/OL that design and construction be administered through the [REDACTED] Office.
